

Hello Parents,

In accordance with direction from the State Health Department and State Superintendent of Schools, all Morgan County School District schools will be on dismissal for two weeks.

What this means for your students:

- Students will continue their classes online rather than in a school building.
- Teachers will be coordinating efforts on Monday and Tuesday to develop online curriculum that will be available beginning Wednesday via email, Canvass, or Google Classroom, as directed by the individual teacher or department.
- Families who do not have internet access or a computer available at home should contact their students' schools on Monday or Tuesday to request printed materials or to check out a laptop.
- Buildings will remain open to help with the collection and distribution of coursework as well as for food service for our county's families who are most in need.
- All school activities, including performances and sports practices and games, are canceled for the duration of the dismissal. Prom is postponed. The high school's band trip will be assessed in a few weeks.
- As of now, dismissal should not affect the established calendar year or Graduation.

As always, the health of our students, staff, and community are our top priority. We continue to work closely with the health department and will keep you updated as information becomes available.

We know that we can depend on the strength and resiliency of this community as we face this challenge together.

Thank you,

Doug Jacobs

Superintendent

Morgan School District
